Ref. Ares(2025)3773266 - 09/05/2025

Detailed budget table RFCS

Participant[1]	1- CELSA
Legal Name	**CELSA OPCO, SA**
Country	Spain

[1] When numbering the participants, use the same order as in Part A of the proposal.
[2] Refer to the Call document for a definition of affiliated entities

Estimated eligible project costs

A. Personnel costs

	Person-Months	Costs (EUR)
Total A	158	**1264000**

E. Indirect costs **E = 35% of Total A**	**442400,00**

B. Subcontracting costs[1]

Name of Subcontractor (if known)	Work description[2]	Costs (EUR)
	Total B	**0,00**

[1] Subcontracts may cover only a limited part of the work.

[2] Give a brief description of the activities to be performed by the subcontractors, with indication of tasks of the Technical Description (Part B of the proposal); make sure to mention the subcontracts also in Part B.

C.2 Purchase costs - Equipment

Description [1]	Date of purchase	Utilisation period (months) [2] [A]	Depreciation period (months) [3] [B]	Cost of purchase [C]	% allocation to the project [4] [D]	Costs [(A/B)xCxD]
						0,00

C.2 Rental or leasing costs - Equipment

Category		Description	Costs
Rental of equipment [5]			
		Total C.2	**0,00**

[1] PCs and other equipment used for administrative tasks are not eligible costs
[2] This is the period (in months) during which the equipment is used for the project after its delivery
[3] Depreciation period should be in line with the applicable rules in the beneficiary's country and with the beneficiary's usual accounting policy

Detailed budget table RFCS

Participant[1]	1- CELSA
Legal Name	**CELSA OPCO, SA**
Country	Spain

[1] When numbering the participants, use the same order as in Part A of the proposal.
[2] Refer to the Call document for a definition of affiliated entities

4 For example, if the equipment is used for 6 months and in that time the equipment is used for a total of 300 hours for the project, but for no other purposes, then the allocation is 100%. However, if during the same period the equipment is used for 300 hours for the project and is also used for 100 hours for purposes other than the research project, then the allocation is 75%
5 The total cost for renting equipment must not exceed the allowable costs for its purchase. If the items are used also for other activities outside this project, the amount charged to the project must be reduced proportionally

C.3 Purchase costs - Other goods, works and services (Operating costs)

Category	Description [1]	Costs[2]
Raw materials		
Consumables		
Energy		
Transportation of raw materials, consumables, equipment, products, feedstock or fuel		
Maintenance, repair, alteration of existing equipment		
IT and other specific services	Website development and maintanance and other communication services (3xvideos, leafets...) (18500€) - WP9 Expert support in market intelligence gathering in construction and automotive (46000€) - WP4 Software licenses (licencies IBP, licencies de powerbi, cloud services) (127900€) - WP2	192400
Analysis and tests		
Dedicated workshop organisation	Organisation of 10 workshops and project events, costs for rooms and catering - WP9 Partcipation to 10 conferences and fairs - WP9	50000
Certificate on financial statements[3] and bank guarantee	Audit - WP1	5000
Protection of knowledge		
	Total C.3	**247400,00**

[1] For each category, give a detailed description and, in case of amounts exceeding 10 000 EUR, a breakdown of costs; if necessary, add more lines.

2 If the items claimed are used also for other activities outside this project, the amount charged to the project must be reduced proportionally

[3] CFS [Certificate on financial statements] costs are eligible only if CFS required under the grant agreement.

Total estimated eligible project costs (A + B + C.2 + C.3 + E)	**1953800,00**

Estimated project income		**EUR**
Requested grant amount[1]		976900,00
Own resources		976900,00
Other resources	(indicate source: revenues, in-kind or financial contributions by third parties)	
Other resources	(indicate source: revenues, in-kind or financial contributions by third parties)	
	Total estimated project income[2]	**1953800,00**

Detailed budget table RFCS

Participant[1]	2- BCN
Legal Name	**COMPAÑÍA ESPAÑOLA DE LAMINACION SL**
Country	Spain

[1] When numbering the participants, use the same order as in Part A of the proposal.
[2] Refer to the Call document for a definition of affiliated entities

Estimated eligible project costs

A. Personnel costs

	Person-Months	Costs (EUR)
Total A	119	**975800**
E. Indirect costs	**E = 35% of Total A**	**341530,00**

B. Subcontracting costs[1]

Name of Subcontractor (if known)	Work description[2]	Costs (EUR)
	Total B	**0,00**

[1] Subcontracts may cover only a limited part of the work.

[2] Give a brief description of the activities to be performed by the subcontractors, with indication of tasks of the Technical Description (Part B of the proposal); make sure to mention the subcontracts also in Part B.

C.2 Purchase costs - Equipment

Description [1]	Date of purchase	Utilisation period (months) [2] [A]	Depreciation period (months) [3] [B]	Cost of purchase [C]	% allocation to the project [4] [D]	Costs [(A/B)xCxD]
						0,00
						0,00
						0,00
						0,00

C.2 Rental or leasing costs - Equipment

Category		Description	Costs
Rental of equipment [5]		Labelling robot for final product (15k€/month) (to be installed in the rolling mill on M12 and used during the WP7 demonstration and WP3 validation process = 43% of time.) The cost of the brand new equipment is 900 000 euros. That is why we prefer to rent it.	252000
		Total C.2	**252000,00**

[1] PCs and other equipment used for administrative tasks are not eligible costs
[2] This is the period (in months) during which the equipment is used for the project after its delivery

Detailed budget table RFCS

Participant[1]	2- BCN
Legal Name	**COMPAÑÍA ESPAÑOLA DE LAMINACION SL**
Country	Spain

[1] When numbering the participants, use the same order as in Part A of the proposal.
[2] Refer to the Call document for a definition of affiliated entities

[3] Depreciation period should be in line with the applicable rules in the beneficiary's country and with the beneficiary's usual accounting policy

4 For example, if the equipment is used for 6 months and in that time the equipment is used for a total of 300 hours for the project, but for no other purposes, then the allocation is 100%. However, if during the same period the equipment is used for 300 hours for the project and is also used for 100 hours for purposes other than the research project, then the allocation is 75%
5 The total cost for renting equipment must not exceed the allowable costs for its purchase. If the items are used also for other activities outside this project, the amount charged to the project must be reduced proportionally

C.3 Purchase costs - Other goods, works and services (Operating costs)

Category	Description [1]	Costs[2]
Raw materials		
Consumables	Sensors: Cameras required for OCR reading at the reheating furnace (20 500€), Cameras required for labelling robot (73 800€), Cameras for bar to bar tracking (21 000€), Other sensors (16 300€) - WP3	131600
Energy		
Transportation of raw materials, consumables, equipment, products, feedstock or fuel	Transportation of equipment - labelling robot and ancillary devices for weighting (WP3)	30000
Maintenance, repair, alteration of existing equipment	(1) Improvement of billet labelling system: evacuation PLC upgrade for both Continuous Casting 1 and 2 (CC1 & 2) (10.300€) and Repairs and replacements for labelling robot CC (65.000€) (2) Upgrade data logger in CC1 & 2 scale to improve traceability and cutting system (31.200€), installation of the scale logger (11.000€); Cameras in CC for cutting optimisation (19.000€) (3) Improvement of scrap weighting system at scrap bay: Load cells on the grab of the basket charging crane to provide redundant measurement of the load weight (20.000€ for the cells and 15.000€ for installation) (4) Improvement of tundish weighing system to reduce yield losses and improve casting quality (45 000€); (5) Improvement of weighing in ladle crane (50,000 €) All for WP3	266500
IT and other specific services	Installation costs: Labelling robot in CC (195000€); Labelling robot final product (59000€), Installation of other sensors (11000€) Networks (41000€) Yield improvement algorithm leveraging on upgrade of the cutting system - sensors and scales included in other categories of the budget (54500€) All for WP3	360500
Analysis and tests	Lab tests for steel quality verification for chemical	25000
Dedicated workshop organisation		
Certificate on financial statements[3] and bank guarantee	Audit (WP1)	5000
Protection of knowledge		
	Total C.3	**818600,00**

[1] For each category, give a detailed description and, in case of amounts exceeding 10 000 EUR, a breakdown of costs; if necessary, add more lines.

2 If the items claimed are used also for other activities outside this project, the amount charged to the project must be reduced proportionally

[3] CFS [Certificate on financial statements] costs are eligible only if CFS required under the grant agreement.

Total estimated eligible project costs (A + B + C.2 + C.3 + E)	**2387930,00**

Detailed budget table RFCS

Participant[1]	2- BCN
Legal Name	**COMPAÑÍA ESPAÑOLA DE LAMINACION SL**
Country	Spain

[1] When numbering the participants, use the same order as in Part A of the proposal.
[2] Refer to the Call document for a definition of affiliated entities

Certificate on financial statements[3] and bank guarantee	Audit (WP1)	5000
Protection of knowledge		
	Total C.3	**5000,00**

[1] For each category, give a detailed description and, in case of amounts exceeding 10 000 EUR, a breakdown of costs; if necessary, add more lines.

2 If the items claimed are used also for other activities outside this project, the amount charged to the project must be reduced proportionally

[3] CFS [Certificate on financial statements] costs are eligible only if CFS required under the grant agreement.

Total estimated eligible project costs (A + B + C.2 + C.3 + E)	**850640,00**

Estimated project income		**EUR**
Requested grant amount[1]		425320,00
Own resources		425320,00
Other resources	(indicate source: revenues, in-kind or financial contributions by third parties)	
Other resources	(indicate source: revenues, in-kind or financial contributions by third parties)	
	Total estimated project income[2]	**850640,00**

Detailed budget table RFCS

Participant[1]	8- IRIS
Legal Name	**IRIS TECHNOLOGY SOLUTIONS, SOCIEDAD LIMITADA**
Country	Spain

[1] When numbering the participants, use the same order as in Part A of the proposal.
[2] Refer to the Call document for a definition of affiliated entities

Estimated eligible project costs

A. Personnel costs

	Person-Months	Costs (EUR)
Total A	70	**350000**
E. Indirect costs	**E = 35% of Total A**	**122500,00**

B. Subcontracting costs[1]

Name of Subcontractor (if known)	Work description[2]	Costs (EUR)
	Total B	**0,00**

[1] Subcontracts may cover only a limited part of the work.

[2] Give a brief description of the activities to be performed by the subcontractors, with indication of tasks of the Technical Description (Part B of the proposal); make sure to mention the subcontracts also in Part B.

C.2 Purchase costs - Equipment

Description [1]	Date of purchase	Utilisation period (months) [2] [A]	Depreciation period (months) [3] [B]	Cost of purchase [C]	% allocation to the project [4] [D]	Costs [(A/B)xCxD]
						0,00

C.2 Rental or leasing costs - Equipment

Category		Description	Costs
Rental of equipment [5]			
		Total C.2	**0,00**

[1] PCs and other equipment used for administrative tasks are not eligible costs
[2] This is the period (in months) during which the equipment is used for the project after its delivery
[3] Depreciation period should be in line with the applicable rules in the beneficiary's country and with the beneficiary's usual accounting policy

Detailed budget table RFCS

Participant[1]	8- IRIS
Legal Name	**IRIS TECHNOLOGY SOLUTIONS, SOCIEDAD LIMITADA**
Country	Spain

[1] When numbering the participants, use the same order as in Part A of the proposal.
[2] Refer to the Call document for a definition of affiliated entities

4 For example, if the equipment is used for 6 months and in that time the equipment is used for a total of 300 hours for the project, but for no other purposes, then the allocation is 100%. However, if during the same period the equipment is used for 300 hours for the project and is also used for 100 hours for purposes other than the research project, then the allocation is 75%
5 The total cost for renting equipment must not exceed the allowable costs for its purchase. If the items are used also for other activities outside this project, the amount charged to the project must be reduced proportionally

C.3 Purchase costs - Other goods, works and services (Operating costs)

Category	Description [1]	Costs[2]
Raw materials	N/A	0
Consumables	Materials and components for building monitoring system prototypes in WP3 to be implemented in the BCN site: Industrial cameras for 3D monitoring of yard inventory, real-time charge mix determination (40000€) and thermal imaging camera for monitoring casting parameters (20000€); other sensors (10000€); protective enclosures (5000€); optomechanical parts for sampling (15000€)	90000
Energy	N/A	0
Transportation of raw materials, consumables, equipment, products, feedstock or fuel	Shipment and insurance costs for the monitoring solutions developed in WP3 (€12000)	12000
Maintenance, repair, alteration of existing equipment	Maintenance costs for the cameras provided for WP3 in case of alteration because of harsh environment (€10000)	10000
IT and other specific services	IT Servers for hosting and deployment digital system, screen and other components within WP3 (€25000)	25000
Analysis and tests	Steel samples characterization analysis within WP3 (€20000)	20000
Dedicated workshop organisation	N/A	0
Certificate on financial statements[3] and bank guarantee	Certificate on Financial Statement (CFS) - WP1	5000
Protection of knowledge	IPR assessment (€10000), conference registration and publication fees (€3000) - WP9	13000
	Total C.3	**175000,00**

[1] For each category, give a detailed description and, in case of amounts exceeding 10 000 EUR, a breakdown of costs; if necessary, add more lines.

2 If the items claimed are used also for other activities outside this project, the amount charged to the project must be reduced proportionally

[3] CFS [Certificate on financial statements] costs are eligible only if CFS required under the grant agreement.

Total estimated eligible project costs (A + B + C.2 + C.3 + E)	**647500,00**

Estimated project income		**EUR**
Requested grant amount[1]		323750,00
Own resources		323750,00
Other resources	(indicate source: revenues, in-kind or financial contributions by third parties)	
Other resources	(indicate source: revenues, in-kind or financial contributions by third parties)
